Class was good as always.

I learned about other peoples papers and how they are as a writer that helped me with my paper.

Today's class was very informative. I was able to gather ideas by reviewing other students rough draft. I was able to gather ideas on sentence structure, and word choice.

I understood today's class very well, and
I don't have any questions.

Today in class we went over our paper.

How the paper layout was going to be,
and what is the expectation. We also

did peer review. We exchanged paper

with 3 people gave and received feedback.

We also went over some strategies

on how to stay organized and on top of

our work. We discussed we can

prepare planners, planners on night

boards.

I found today's class to be very simple and helpful. I really liked how we peer edited each others papers. I learned on what I need to work on in my essay as well as new ideas that I can add to my paper and how to better improvement to my essay.

Do we have to have the
writing center go over our paper
and then turn it into you?

I like that we were able to share ~~our~~ our ways of
strategies on stack and using calendars. The peer feedback
was very helpful.

Even though I didn't have my paper done I still learned a lot on how to make my paper better and how to start my intro from editing my peers papers.
