Price: **\$499.99**

Get \$70 off instantly: Pay \$429.99 upon approval for the Amazon Prime Rewards Visa Card.

Only 1 left in stock - order soon.

Want it tomorrow, April 10? Order within **3 hrs 53 mins** and choose **One-Day Shipping** at checkout. [Details](#)
Sold by [Sinicvision Technology](#) and [Fulfilled by Amazon](#). Gift-wrap available.

- Original box. Comes with: 1* handheld device, 1* 3800mAH battery, 1* charger (US standard), 1* USB cable. Optional dock charger available at: www.amazon.com/dp/B0744FGPH5
- A pocket-size warehouse inventory scanner with unparalleled ruggedness. Incorporated Motorola Symbol SE955 laser scan engine for professional 1D barcode reading. Ideal for scan-intensive environments that require high-quality data capture throughout the enterprise. Supports web-based and Google Android inventory applications, excel input. You can simply scan barcode into programs that you would normally manually type in the barcode. Also you can develop tailored app based on SDK provided by us.
- Qualcomm 1.2GHz quad-core CPU, 2G RAM / 16G ROM. Optimized Android 5.1 operation system for data real-time encryption, guarantee enterprise data security. Support WiFi 802.11b/g/n & Bluetooth 4.0 for wireless data transmission. Extension card slot: micro SD card/ SAM card slot.
- 4inch LCD display with high sensitivity capacitive touch panel for outstanding user experience. Can operate when wearing gloves, or with wet finger. 3800mAh rechargeable lithium battery. Truly rugged design, can survive 1.5 meters drop to concrete.
- Designed for a wide range of mobile works in retail, postal, field service, transportation, logistics, warehouse management, order fulfillment, commercial delivery, hospitality, manufacturing, agriculture etc., tasked with delivering high levels of customer service all day long, reducing operational costs.

September 4, 2017

Verified Purchase

Use these in a warehouse where we use Remote Desktop to a custom application for warehouse management. The guys love this much more than the MC9090 Symbol handhelds that we had. They are smaller, battery life is great and it's much easier to use because of the screen size and how it's more like a mobile phone. We set up email on them too so it's a multi function unit! The barcode scanner works great too and some of our codes are long and tight. Very happy with these and have 3 now.

Eric Klingensmith

Perfect Warehouse Handheld Scanner

November 2, 2016

Verified Purchase

This handheld was everything that we were looking for. Very rugged. Highly responsive. Fantastic support from the manufacturer.

My only reservation is the old version of Android OS that is stuck on the device, but we are working on that and that doesn't make me love this product any less.

Jeff B.

Very well made, easy to use and durable

November 1, 2016

Verified Purchase

I wound up buying ten of these units! They are very well made, easy to use and durable. The software is very up to date. The built-in GPS helped me keep track of any that may try to leave the building. Security was simple. We were able to lock them down to the point workers can't get on the web, play games, or download anything at all. The range is great and we love the screen size. These are performing as well if

not better than the ones I paid almost double for! Buy these and you'll not be sorry. The do scan every 1D bar-code I've tried, and we've tried a lot of different ones to find the one that best suited our needs. Simply enable them in the settings and go for it! When I ordered these the seller shipped immediately and they were here in a matter of days! I was impressed with the service and follow-up after the sale! I'll be needing more in the spring and this is the ones I'll buy again!

 David Kurz

I'm really, really impressed with this item.

June 28, 2016

I'm really, really impressed with this item.

PROS:

- It's modern Android, so anyone who use the OS on their phone feels right at home. It's not WinCE!
- The touch screen is responsive.
- I dropped it a couple of times with no issues.
- The price is right.
- Scanner worked right out of the box.
- Came with battery and charger. A lot of mobile computers sell those as add-ons.
- Did I mention it's not WinCE?

CONS:

- The 3 key has to be pressed hard to get it to work.
- It has a Push To Talk button - but I can't get it to do anything.

I tried the Motorola MC40, but that the has so much crap on it to make it "secure", it's hard to use.
