

Table 1

Timestamp	Pick your section	Is this your first year as a college student?	Is this class your only Live Online class?	Given the format of the class, do you think there is enough interaction between you and your teacher?	Given the format of the class, do you think there is enough interaction between you and your classmates?	How helpful are the breakout rooms, the chat feature, and polls done in class for your learning?	What do you think is going well about class? This includes inside and outside of class.	What do you think could improve about class? This includes inside and outside of class.	Other comments or concerns about class you want to mention... the good, the bad, and the ugly.
2020/09/11 3:52:58 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, I graduated High School this year.	Yes	I think we need a little more time to interact with the teacher.	I think we should be in groups and work together.	It is very helpful.	I like that we are able to be in groups and meet people.	I think we should have partner working and more group work stuff.	I honestly enjoy this class. I like the teacher and the students.
2020/09/11 3:57:19 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	Yes	No because of covid	Very	How the professor teaches and explains	Nothing really	No
2020/09/11 4:26:05 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	Yes	yes	no	helpful	grades	nothing	i like the professor
2020/09/11 4:34:39 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	No	Yes	No. But I am content with it.	Not very helpful. We don't talk much.	I think my assignments are going well.	I would like to have better connection with my classmates & get to know them.	No other concerns
2020/09/11 5:11:30 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	I would say yes	I would also prefer a little more	They are useful enough, we get to share ideas and answers	I would say the time is going really well, we have the time to actually do things.	The quantity of the questions could go down to 15, i think 20 is too much	Not really, have a nice weekend!
2020/09/11 6:44:04 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	Yes	Yes	Yes	Not that useful to me	I like the format of the work/timeline	Nothing	None
2020/09/11 6:58:35 PM MDT	MAT 151 section 23417 meeting @10:40am	No, I have completed some college courses.	No	Yes	No because in the break out groups they don't talk very often	Kinda helpful but only when people talk	I am understanding the lessons and it's not too fast!	Making turning on your camera mandatory in break out groups so people can't just sit there and not talk	I love the class! Lol
2020/09/11 9:03:03 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	Yes	Yes	Somewhat	Good explanations	Nothing	No
2020/09/11 10:46:03 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, but I am returning to school after a break from High School.	No	Yes	no,sometimes we don't interact at all but it is OK if they at least do their work.	they are pretty useful for communicating with the teacher.	that we are able to learn, and able to reflect about the class in real life issues.	for now im not sure.	they been really good.
2020/09/12 12:08:04 AM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	No	Yes, I do think this is enough interaction for me to understand the criteria. The professor has done a very good job at explaining each problem; even if another student needs to hear it differently she will go over it another way.	Not very much interaction with the students just because this is an online class and we have very limited time.	The breakout rooms help me somewhat but the polls do help me.	I think I understand the content of the class and I am able to learn through the videos in MOER and through the Zoom class.	I think posting pictures of the lessons onto educractions would be very helpful. It would help me listen better knowing that I have something to refer back to if I miss any notes.	I like the class that I am in. I know the professor tries her very best which I really appreciate. Since the online is new I totally understand the difficulties of technology. Nothing bad seen from my end. :)
2020/09/12 12:56:29 AM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	Yes	Yes, she has tutoring sessions if we ever need extra help as well	No, they never talk during breakout rooms	Not much because it's hard to learn when everyone's confused	The lectures, the fact that we can still see her notes is very helpful	Probably, once again, the breakout rooms, no one talks, this needs to be fixed 😞	People need to talk more in breakout rooms, it's really hard to actually get peers help on problems when no one talks or discusses.
2020/09/12 2:15:30 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	Enough for me	No	Not very	I like that I can contact you whenever	It's too slow for me	The breakout rooms are awkward
2020/09/12 10:39:26 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	Yes, I believe so.	Yep, we go into breakout rooms and discuss the problems given to us.	on a scale of 1-10, i'd say an 8	I think the lessons are going well given what the teacher has.	maybe more interactive problem solving	nah
2020/09/12 2:06:57 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	Yes	Yes, 2 days out of the week is enough interaction between the teacher and myself because everything gets explained well.	Yes, there is enough interaction between me and my classmates.	They're very helpful because I like to bounce off ideas and share answers with my peers to better understand the subject.	The lessons are being taught very well and there isn't much confusion on how to complete the assignments after.	Nothing comes to mind right now because everything has been going well so far.	Even though math isn't my strongest subject, this class is pretty easy and taught well so I feel more comfortable doing the work.
2020/09/12 10:16:43 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	No	yes	no	very	the teaching	more student to student talk	n/a
2020/09/13 9:22:45 AM MDT	MAT 151 section 23417 meeting @10:40am	No, I have completed some college courses.	Yes	Yes		The are very helpful because we get to know how other people find the answer.	I think having this class be live online makes a big difference than just online and also having hours after class is great.	I don't think anything would need to improve.	No.
2020/09/13 4:44:37 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, I graduated High School this year.	Yes	yes	yes	helpful	the communication is great and the teaching has been great as well!	nothing	the class has been great so far !
2020/09/13 9:26:45 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, I graduated High School this year.	Yes	Yes I do, you have tutoring is we can go to during the week.	Not really	The polls are helpful. The breakouts are somewhat helpful, sometimes 5 minutes isn't enough to solve the problem given to us.	What is going well in the class are your teaching, the notes and the homework, most of the time not very difficult.	The breakouts could be longer and we should have more to have more interactions with our classmates.	I am honestly really enjoying your class!
2020/09/14 10:41:06 AM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	No	I think so, yes. I think that Zoom makes it difficult. Lectures are my main way of learning, as long as I have an ability to use the information I learned afterwards. Going on Zoom, then going through MOER helps me a lot.	I don't think there is. But I don't think it's the class' fault. Just the format. I don't really reason to interact with other students besides when I'm put in a breakout room. Which are problematic in their own right, for me.	I don't like breakout rooms. Even in person, I've had difficulty getting anyone else to actually want to participate. I often feel like I'm the only one interacting. The fact that we're online makes it even worse than before. In my experience, at least.	I like that you are patient and willing to go back to things someone may not have understood. Besides that, EduCreations and the video lessons are a lot of help. The fact that MOER allows repeating questions contributes to my understanding of equations a lot.	MOER is pretty confusing. I honestly don't have any criticisms besides that.	I don't have any issues! I really like that you don't call particular names out. I've had it happen in past classes, and it made me feel more anxious than anything to learn new concepts. Asking the class to participate as a whole makes me more likely to be willing to contribute more than if you just called me.
2020/09/14 11:53:46 AM MDT	MAT 151 section 23414 meeting @9:20am	Yes, but I am returning to school after a break from High School.	Yes	I feel that there is enough interaction with myself and the teacher.	I think there is enough interaction. Not many people like to talk in the breakout rooms so I don't see much of a point in them.	I prefer the polls as opposed to the breakout rooms. So it's more of a whole class discussion.	I like that I can do my assignments where I please and on my own time.	I think that I personally need more in depth explanation of why certain answers are given. I'm a visual learner and if I don't see step by step, how things are done, I get lost very easily. I also would like to see some more examples from the homework.	I appreciate all of the time and effort you have put into being easily accessible to your students. It makes the learning process easier for me! So thank you!
2020/09/14 1:02:08 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	Yes	No	Breakout rooms are not helpful because nobody talks. Polls are a little helpful	I am doing an okay job of teaching myself using outside resources.	Class seems a bit rushed sometimes. I need it to slow down and I need you to explain in detail.	I enjoy going to class but could you please slow down and explain instead of expecting us to know everything so quickly?
2020/09/15 7:30:55 AM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	Yes	Yes!	Sort of but I'm perfectly okay with it!	Not really helpful, no one says anything in them	That I communicate my exact problem that I'm having trouble with to my teachers via MOER message and I don't have that pressure about online class because we still have a virtual class	Just for me a better way to take notes.	If there is any way you can allow recording on our classes because sometimes I have to step away for my baby and get kind of scrambled.
2020/09/15 8:18:16 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, but I am returning to school after a break from High School.	Yes	Yes	No	The breakout rooms are a hot or miss. The chat and poll feature are very helpful though.	The information of the content flows really well and doesn't seem to be overwhelming.	Create a better way to interact with classmates.	Nothing else
2020/09/16 12:12:11 PM MDT	MAT 151 section 23417 meeting @10:40am	No, I have completed some college courses.	Yes	Yes	Yes	I'm a big fan of the polls and the chat feature but I'm not a fan of breakout rooms	The workload is very manageable, instructions and lessons both in person and virtually are very clear, enthusiasm and attentiveness exhibited by instructor is very refreshing and appreciated.	I don't have any critiques in terms of improvement.	I hate doing virtual calls because the nighttime is my daytime so it can get in the way of my productivity and sleep schedule. However, the energy exhibited by Prof. Stefan in every call and the comprehensive teaching style makes for a better learning environment and adds to the overall experience. The effort and care shown makes the calls worth it, in my eyes.
2020/09/16 5:31:27 PM MDT	MAT 151 section 23417 meeting @10:40am	My second semester but first full time, last semester was my first semester back to school after graduating high school on 2011	No	yes,	no and yes, the times we have been put into the breakout rooms no-one has talked even after saying hello a couple of times.	helpful	I like how you explain everything and take the time to make sure everyone is on the same page, even when no-one answers	I like everything so far	I don't have any comments or concerns at the moment
2020/09/16 9:52:37 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	Yes	Yes i do think so.	Personally I don't think so.	The breakout room at times can be useful it just depends on the people in there, chat is every helpful, polls are also great thing.	Whats going well is the time we have to do work and videos you post.	At the moment nothing so far.	The lag at time can be annoying but its pretty hard to fix that.

Timestamp	Pick your section	Is this your first year as a college student?	Is this class your only Live Online class?	Given the format of the class, do you think there is enough interaction between you and your teacher?	Given the format of the class, do you think there is enough interaction between you and your classmates?	How helpful are the breakout rooms, the chat feature, and polls done in class for your learning?	What do you think is going well about class? This includes inside and outside of class.	What do you think could improve about class? This includes inside and outside of class.	Other comments or concerns about class you want to mention... the good, the bad, and the ugly.
2020/09/17 2:49:57 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	Yes	Not really	No, most people don't talk	The lectures overall are good	The interaction with other students could be improved	I like this class, there really isn't anything I would want to change besides the interaction with other classmates.
2020/09/17 5:23:57 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	Yes	Yes the live classes allow for me to ask question then and there and she always makes sure to ask us if there are any questions for anyone holding back from asking.	Yes she always provides breakout rooms which allow us to interact with the other classmates and come together to solve problems.	The breakout rooms are very helpful, because it provides a different perspective upon the topic and allows to see different ways things can be done and see what works better for other students.	I think the side lessons on educations works well from the class due to it providing extra information upon the topic that can be accessed at any time of the day fro extra support.	Everything seems to go well homework can be a little tricky with the answers having to be written in a specific form even if they are correct it'll count them wring if not correctly formatted, but it is all a matter of just being aware and reading directions carefully.	Everything in class is going good I have been understanding all of the lectures which is great, because math is one of the subjects I tend to struggle most with.
2020/09/17 5:33:12 PM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	No	Yes	Yes	They are very helpful as they allow me to interact and work with my classmates	The pace of learning as I do not fall behind	I think making more difficult math problems would help	In general I would like the questions to be more challenging so I can see how much I understand
2020/09/17 5:36:10 PM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	Yes	Yes I think it is fine.	Yes we do a-lot of break out rooms.	very helpful	The professor teaching well	More time in class	This has been a great course so far.
2020/09/17 5:39:52 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, I graduated High School this year.	Yes	Yes I do.	Yes I do.	I feel like breakout rooms are good with getting to know each other, and also helping each other help if needed.	I feel like the amount of communication you are able to have with your professor/ classmates if you ever need anything.	I personally feel like everything is going good with online class.	No, thank you.
2020/09/17 6:08:08 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, I graduated High School this year.	Yes	Yes	Yes I like the breakout rooms	Very helpful	I like the pace we have going and I'm not getting confused about anything yet	Nothing	Not as hard as I thought it would be which is very good.
2020/09/17 6:25:40 PM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	Yes	Yes I do	Yes	Somewhat Helpful	The speed, I like how we have more time to do assignments.	I like the class as is.	none
2020/09/17 6:40:02 PM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	No	Yes	Not much	Somewhat helpful	I like the teaching videos they help	I miss the classroom	None
2020/09/17 7:01:33 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	No	There is enough communication but there are sometimes things not that clear.	Yes we discuss the questions	They help us understand the questions and work through them	The amount of work and the time	The hw	The class runs smooth
2020/09/17 7:04:10 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	Yes	Yes	Yes	They are beneficial	What we learn in class helps us with our assignments	No	I have no comments! I am enjoying the class
2020/09/17 7:04:44 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	Yes	Yes	Yes	Helpful	I think it is nice being able to have an "in person" class	Be more productive instead of getting my assignments turned in right on time.	If we don't attend a zoom will we get dropped from the class
2020/09/17 7:05:41 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I am a Dual Credit student.	No	Yes!!! She's doing great	It's hit or miss	Polls are usefull and breakout rooms are hit or miss	Inside the class is well & so is outside because of the extra videos we get	Maybe check the chat more	Great teacher very kind
2020/09/17 7:26:36 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	No	No	No	No one really talks in the breakout rooms	I get my work done and on time	More interactions with others because it is hard to communicate and can be a bit awkward	N/a
2020/09/17 7:26:56 PM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	No	Given the format and the circumstances we are all in, I think things are pretty well rounded and the my teacher does a good job of engaging the class and making sure that if help is needed she is available (most of the time).	Between me and my classmates I don't believe there is much of anything going on. Everyone sort of feels awkward in a way not learning in person so when they can't visualize who they are seeing then its just a tad bit strange.	These features are neat and a good way of keeping people attentive in a way.	Class is tolerable if I am being entirely honest, I'd much rather learn things in person and get physical assignments to do because with just the computer some things can get lost of complicated in a way if that makes any sense.	Students talking more in the breakout rooms i guess, when no one needs help it just falls silent.	All in all everything is pretty fair.
2020/09/17 7:31:44 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	Yes	Yes	Yes	I think it's pretty helpful	The Communications between us students and the instructor through texting. The way the instructor is presenting the course.	I don't think of anything that needed to be improve	None
2020/09/17 7:40:18 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, but I am returning to school after a break from High School.	Yes	Kinda but I can't really do longer classes cuz of my work schedule.	Eh not really but don't really need to talk to the classmates. Unless it's making together or something of that.	Breakout rooms we don't really use much everyone quite which is understandable I'm shy as is I don't really like talking.	Zoom class are hopefully you explain everything very good. It helps me out a lot .	Everything seems fine. Maybe few more examples like give examples on how the homework is. Kinda helps	I'm okay with the class. I enjoy when you make jokes an stuff helps me stay awake 🥰❤️
2020/09/17 8:04:17 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	No	Yes	Not really but that's okay	Pretty helpful especially the chat feature because that's how most of us reply	The presentation of the material and the fact that my professor provides us with additional resources	My time management could definitely improve	N/a
2020/09/17 8:09:49 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, but I am returning to school after a break from High School.	Yes	Yes!	Yes !!	Very helpful	The teacher is very clear on what she teaches and helps me a lot with assignments	Better quality zoom meeting	None !
2020/09/17 8:31:09 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I am a Dual Credit student.	Yes	Yes	Yes	They are helpful because we can interact with other classmates through the breakout rooms	I think the communication is well between the teacher and students and the notes are thoroughly taught	Maybe send out reminders of the days homework is due because I don't always see it on MOER	N/A
2020/09/17 9:31:38 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, but I am returning to school after a break from High School.	Yes	I believe there is enough interaction	I feel as though there is enough	I enjoy the chat and poll features. I do not personally think breakout rooms are that useful	I think the live lectures work well with the video lessons to give a more complete understanding of the subject	I wish sometimes students participate more in the live lessons instead of just a select few, but I realize that that is a difficult problem to fix. I also realize that I am partially at fault at times	I have no further comments
2020/09/17 10:47:54 PM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	Yes	Yes, she gives us enough opportunities for one on one.	I believe so, yes	I find it useful and it keeps me focused in class	I think us being frequently informed about things happening in class is great	I don't really have anything to add to that. I enjoy how it is now	I enjoy how the class is formatted because I'm well acquainted with all of the tools and resources
2020/09/17 11:32:28 PM MDT	MAT 151 section 23414 meeting @9:20am	Yes, I graduated High School this year.	No	Yes and there is always more options to get more individual help if you need	No but I like to work independently so its better in my opinion, there is ways to work around it like the breakout room more often if needed but personally I like how it is	Polls are more helpful breakout rooms always seem like we need just a little more time or sometimes people don't communicate in there	I like the way lessons are ran there really smooth and easy to follow even if we have questions	Lessons sometimes get held up for reasons that could be avoided like long questions maybe have the people with those write them down and wait, im really not to sure sometimes I just feel like were waiting for others a bit	I really like you give us enough time to complete the homework I don't feel overwhelmed if Im on top of it
2020/09/18 12:16:46 AM MDT	MAT 151 section 23417 meeting @10:40am	No, I have completed some college courses.	Yes	Yes	Given the format it's fine. A lot of the people aren't on my level in math anyways. Some of those people need to go retake MAT121.	Breakout rooms are useless. I think the class learning together is more helpful. I think we need to utilize the annotate feature more. Chat feature is a must since people are afraid to use their microphones. Polls are helpful for brain checks. Should be utilized as often as possible to make sure students are understanding the material. This should replace the breakout room "group solving" since no one talks in those.	Clear instruction. Easy to follow.	Use of annotate feature on zoom.	None. Class is fine. The only pet peeve I have is the high school students because they ask questions about things that I learned in previous college classes so it slows down the lesson. But that would apply for any class I take not just math.
2020/09/18 2:19:09 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I am a Dual Credit student.	No	Yes	No	I don't think we learn with break rooms	My teacher explains everything very well	Less homework and more practice time	Good job on not giving up
2020/09/18 2:40:26 AM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	No	yes	not really	very helpful	Teaching the lessons	More interaction with my classmates	None
2020/09/18 3:13:09 AM MDT	MAT 151 section 23417 meeting @10:40am	No, I have completed some college courses.	Yes	Yes	Yes	Somewhat helpful	The lectures	The breakout rooms and group work.	The class is so far good!
2020/09/18 3:39:39 AM MDT	MAT 151 section 23414 meeting @9:20am	No, I have completed some college courses.	Yes	yes	Yes	Helpful	Easy to follow and easy to reach out to professor	Screen recording of the class	n/a

Timestamp	Pick your section	Is this your first year as a college student?	Is this class your only Live Online class?	Given the format of the class, do you think there is enough interaction between you and your teacher?	Given the format of the class, do you think there is enough interaction between you and your classmates?	How helpful are the breakout rooms, the chat feature, and polls done in class for your learning?	What do you think is going well about class? This includes inside and outside of class.	What do you think could improve about class? This includes inside and outside of class.	Other comments or concerns about class you want to mention... the good, the bad, and the ugly.
2020/09/18 8:24:05 AM MDT	MAT 151 section 23414 meeting @9:20am	I have been dual enrolled at high school and college for the past three years.	Yes	Yes, I think there is enough interaction. The professor is very helpful and allows us to ask her questions multiple ways. Our professor provides multiple ways for us to interact using Remind, Educations, Study Hours, and MOER.	I think there is enough interaction between classmates. When I have a question, I can put it in the Webex chat and get a reply from the professor or other classmates.	I really like the chat, and I also like the polls. I like the polls because they allow the professor to see how many people might have made a mistake, and then allows her to focus on helping us get it right the next time. I believe the breakout rooms have potential, but whenever I am in a breakout room everyone kind of just stares at each other or finishes the question and finds the answer just as time runs out.	I think the professor teaches very well, and I like that they never try to get ahead in a lesson if someone needs an explanation of something. The professor always stops to help that person before moving on, which I appreciate.	I think that the breakout rooms could improve. Perhaps they could be used only to share answers instead of working out a problem? Sometimes it takes my group a little longer to find an answer or they already have the answer before or after I do. Although the breakout rooms have potential, I wouldn't mind if the teacher used that time just to teach us.	I like class, and I can't think of anything that should change.
2020/09/18 11:20:16 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	yes	no	not helpful because most of the time no one talks	That you explain in detail	Maybe make the homework a little easier by making both quizzes and homework 80% or higher	none
2020/09/18 11:43:15 AM MDT	MAT 151 section 23417 meeting @10:40am	Yes, I graduated High School this year.	Yes	yes	yes	they are okay	the homework is easy	i dont know	keep being awesome :)
2020/09/18 11:48:22 AM MDT	MAT 151 section 23417 meeting @10:40am	No, I have completed some college courses.	No	yes there is enough	no, but I don't think we need it.	the breakout rooms are not very helpful because no one talks. the chat feature does help especially when we don't want to turn on our mic. the polls are also helpful cause it tests where we are and what we doing right or wrong.	i think the lessons are going well, they help out a lot with the homework	so far I don't think there should be any improvements, what we are doing now is helping me a lot.	I think you are doing a great job teacher under these circumstances!
2020/09/18 2:48:03 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	Yes	Yes	Yes	Not really useful	I have time to myself to study	Better internet connection between us and instructors	None
2020/09/18 10:33:05 PM MDT	MAT 151 section 23419 meeting @7:00am	Yes, I graduated High School this year.	No	Yes I do.	it somewhat is	The breakout rooms arent helpful at all to be honest, so far mostly everyone that I have been paired with has not talked to me, even when I ask them a math question. So we all sit in awkward silence, and leave once the time is up.	i think that the way that you teach is going extremely well. I enjoy how class does not feel like a lecture, its enjoyable to learn and you give us little breaks in between, which honestly helps a lot	I am not really sure at the moment.	Thanks for always encouraging us to ask for help when we need it. I had a teacher last year who would get mad at me for asking questions and it really discouraged me to try and get help. I appreciate your help and for wanting our class to succeed.
2020/09/21 5:49:17 PM MDT	MAT 151 section 23419 meeting @7:00am	No, I have completed some college courses.	No	There is enough interaction but it lacks the element of one on one interactions between student and teacher	Yes, but very little. You can not really interact unless you go into breakout rooms	very helpful, it adds to the fun of live online class overall. It allows for the class to interact with each other and the instructor even more	Definitely would be that we are able to attend tutoring held by the instructor	Nothing that I could think of at this point. This is my first online class ever so I don't really know different	This class is really enjoyable for a 7am class
