Everything as a whole is going really well	Going over everything in a little more detail and writing out/showing all work so I don't get confused on where numbers come from	Hope you have a nice day! No concerns from me :)

Yes! The zoom calls are perfect for teaching especially when you have a teacher that genuinely wants to be there to help which has been the case so far.	5	Yes, because I participate and try to ask questions. We make jokes during class as well which is always fun.	They are very helpful because MOER can be picky about the way you insert answers so it is nice to see the correct way. Also, I like having a teacher explain the problems so I can understand them better.	My grade in this class is really great so far and I don't see it drastically going down anytime soon.	I can't think of anything at the moment since everything is going very smoothly.	Great job teaching this class in such a difficult time.

N/A	Not necessarily because although Zoom is helpful, I think in person is better. I've never reached out to ask questions outside of class either.	5	Yes, I do speak up and ask questions, so I feel comfortable.	I don't always go on Educreations	I think I understand most of what's going on inside of class. Outside of class I really struggle when the problems are not similar to each other and the rules to certain things are confusing. The thing I struggle the most with is inverse functions.	I think giving more examples, not just the harder questions on MOER but the easier ones as well. Maybe an explanation that goes along with them, step by step.	If I email the teacher how soon will she get back to me? I also can never really attend certain hours because I work in the afternoon and I have classes before work.

I work full time as well as going to school and I think I've missed 2 classes from over sleeping.	I think that attending the zoom meeting is enough interaction, if i needed extra help I would send an email.	5	I submit answers in the chat when necessary.	I've only used the moer videos when doing assignments.	I think the class is going well for me. I watch the Moer videos a lot of times while doing the homework.	I don't see the need to improve anything. I have been able to complete all of the homework fairly easily.	I'm sorry for missing class, I was tired.

Missed 2 classes due to internet issues	Internet issues/ duplicate IP conflict in home network.	Yes. We meet 3 times weekly and there are other options where if you need more help you can get it.	5	No because it's online. Online school sucks.	I don't really use them. If I need help in understanding a way to do something I usually look it up on YouTube. This allows me to find different ways on how to do a problem that may be easier than what we learned in class.	Goes at a pace in which everyone can follow.	Class participation. There's usually the same 10 people responding and the rest just sit in silence. I think it's just because it's online. Webcam would be helpful so we could actually see who isn't paying attention and call em out. But then again, I don't care what everyone else is doing. I paid for school so I only care about my grade. The rest should follow suit.	Nope.

Though I only participate but so much, because I learn easier from just listening.	Very helpful to explain equations I'd never figure out otherwise.	The environment during zoom is much more comfortable than my other classes.	The pacing in the past few weeks has been a bit confusing.	No other comments currently.

My teacher is always available when I'm in need of assistance and she is super helpful with whatever topic is asked and no matter how much a person actually knows about whatever topic.	5	I feel like I learn what i need to learn and then some and i feel like when i answer a question it's beneficial to the group, when it's correct of course.	Very insightful and help me fine tune topics that I need a better understanding of.	The transparency of it all and how open things are with the teachers and students. I will say, however, that online classes are not the most ideal things for me personally, it just doesn't feel the same and the most college-like.	Nothing at the moment.	All is good

I find them very helpful, just because the problems come straight from the homework.	I like that there are multiple ways to get in touch with the teacher in case I do have questions. There are also a lot of resources for me to use if I need help with a concept.	I'm sure this is out of your control but the pace of the class seems rather fast, not much time is spent on the topics for me to understand it, I find myself researching on my own through YouTube, EduCreations, etc to give myself a mini lesson on what is going on in class. She helps me whenever I need her and it does not feel like I am lacking a teacher at all!	5	Yes if anything I feel more comfortable talking about a problem or speak in class.	I have not watched them I relied more on class recordings and MOER.	This helps greatly because I have a son and instead of having to leave all the time to go to class I can do class in my home while taking care of him and he gets to hear great information. Yes! The professor is really helpful. Whenever I have a question and use the "email my professor" tool, I always get a reply quickly, and it always helps me understand how to solve the math problem.	5	Yes. I am able to ask questions and text in the chat with other people.	I really like the Educreation videos; I find them very helpful for the homework.	I love that the professor gives us homework every other day instead of all at once, and also provides extra credit! Also, the professor paces the class very well; I am able to understand each topic we learn and I don't feel rushed.	I think everything is good. I'm not sure what could be improved.	You're a great math professor, so I'm excited to take your MAT182 class next semester! :D

2020/10/16 1:40:15 PM MDT	MAT 151 section 23417 meeting @10:40am	Attending Zoom class;Watching videos on Educreations;Doing homework, and being able to do a problem multiple times;Doing the extra credit;Emailing my teacher when I need help;Poll and Chat feature in Zoom	Only missed 1	my daughter got surgery	Yes, she answers all my questions during the chat and through moer.	5	yes.	very helpful I could watch them a couple times till I get how to do the problems	I think everything is going well, I just need more time going over everything	I feel everything is fine	I don't have any at the moment
2020/10/16 4:33:49 PM MDT	MAT 151 section 23419 meeting @7:00am	Attending Zoom class;Watching videos on MOER;Watching videos on Educreations;Doing homework, and being able to do a problem multiple times;Texting my teacher when I need help	Most of the time, only missed about 2-3 classes	Family issues.	Yes, teacher is always asking if we understand.	5	I really don't participate in class, I get a little shy of getting the wrong answer.	Very helpful, it helps me a lot to understand each question and what I'm asked to do.	I believe everything is going really well in class.	Maybe helping those who most need help.	I don't have any other comments or concerns.

She emails me back right away and she helps whenever needed. She is understanding and reasonable.	5	yes because the teacher asks if we are understand what we are learning before we continue	extremely helpful !	I think the interact that the students have with the teacher.	Making sure we understand a lesson before going on to the next one.	amazing teacher ! Thank you for all your help!

I'm comfortable answering questions in class	Very helpful	Having at least three different sources to learn the subject matter (zoom meetings, moer videos, and educreation videos) have been super useful	I think more participation from the class as a whole would be nice. I enjoy the polls, but we never really use them	I don't really have any other thing to mention. I think class is going pretty well

She explains and gives examples of the material we need to learn and goes through it step by step.	5	I think so	They are very useful to me especially if I miss something in class I can always use the videos to figure out what I missed.	I think how well our teacher communicates with us inside and outside of class.	I like the way things are right now	I have no comments or concerns

Yes because you give us time to ask you questions on zoom, talk to us, and you let us contact you.	5	Yes	They are very helpful.	I am learning a lot with videos on Moer.	I wish the lessons were taught slower but that's not up to me.	Nothing, it's all good

Yes I think there is plenty of interaction between the teacher and I, and there are many resources to reach out through.	5	Yes I like how a lot of the class gets involved despite these different times.	If I am really stuck on a question these videos are extremely helpful.	I like the remind text messages, they help me out a lot, and I like how the homework is not too harsh and gives you unlimited tries.	Nothing comes to mind.	I think it is a great class!

Not really only cause some lesson take more than that hour and 40 minutes we have together and our homework gets pushed back which is fine but maybe if we had one more meeting day like sundays mornings 7-8:40am might work but I don't know. Maybe not it might not do much.	5	Yeah classes are fun.	They help me a lot if I didn't have them it would be really hard for me to do my homework.	Everything is fine.	I'm not to sure.	Everything is fine.

Yes I do feel like there is enough interaction. I say this because whenever I need help on a certain question, I send her a message on MOER about the question or subject I need help on and she responds most of the time in less than an hour.	5	Honestly I don't feel like I am a participant in the classroom because I rarely collaborate whenever there is a class discussion.	Most of them have been useful, however sometimes, some problems were not fully solved or I had trouble determining what was the answer to a problem.	Something I feel that is going well in class is the positive attitude the people have.	Something that I think that could improve about class is just more class participation.	No, thank you.

I tend to participate at least two times a zoom call I try at least one through audio and I participate in the chat.	Very helpful when I am stuck on a problem. Extremely helpful	Great teacher who explains things very well and keeps us alerted about her changes to class things or homework.	N/A	N/A

I haven't watched them	Keeping on track as I'm always reminded when things are due.	I'm not to sure	I'm having a good time in class and hope it goes that way till the end of the semester
