

	I have gained a better understanding about a career path in Psychology.	I have gained a better understanding about graduate school in Psychology.	I have learned at least one thing that I can apply to my own personal education and/or career.	I felt that the panelists were relatable	I felt comfortable asking questions throughout the presentation	Why did you choose to attend this session today?	What did you enjoy about the session today?	What would you change about the session today?	Is there anything else you would like to add about our session today? Thank you for your feedback!
	5	5	5	5	5	To learn more and get a better understanding	I love talking about grad schools	Nothing	None at the moment!
	5	5	5	5	5	I found it very interesting and motivational and I found out about it as extra credit it for biopsychology	I enjoyed a lot of the person aspect I love it	Nothing it was absolutely amazing and inspiring	Thank you for everyone for being so inspiring and open!
	5	5	5	5	5	To gain greater insight and 'find' my way	Learning that I am not alone in this journey	Absolutely nothing	
	5	4	5	5	5	I attended this session today because it was a good opportunity and a good learning experience	I one of the things I learned about the session was there was different ways to describe psychology and how it helps us in the world from having working with detectives having Justice working with different families	Honestly I would not change a single thing I enjoy having to communicate with others professors in the same career but different way that they use their psychology methods	Honestly I have nothing else to add it was an amazing experience for me and hopefully for the other people that was at the session
	5	5	5	4	5	I am always interested in hearing the experiences of those in the field of psychology and the educational path they traveled.	Dr. Van has experience applying Buddhist practices to clinical psychology and this is a subject I am very interested in. She provided me with her email and I look forward to starting a dialogue with her on the subject.	Make it 2 hours. 75 minutes for five panelists is not enough time.	No
	5	4	5	5	5	I wish to learn as much as I can from others who have gone before me.	Hearing about challenges that arose in everyone's life that they overcame to achieve their goal.	Have it run longer.	I just listened to the song suggested by one of the panelists "Breathe - In the Heights Lin-Manuel Miranda" and it is oddly applicable to my life. Thank you for putting this panel on and I am glad that my favorite question was used for the last question.
	5	5	5	5	5	I didn't go in with any expectations, but it was incredibly helpful and educational.	It was relatable, and flowed perfectly.	Nothing! :)	I loved the diversity in the group.
	5	5	5	5	5	I am interested in Psychology/Psychiatry and wanted to know more about career paths/experiences	I loved being able to hear from professionals within the field I am pursuing to gain a better understanding of what I want to do and how I would want to apply my future knowledge in Psychology.	I wouldn't change anything. Everyone was very nice and answered some really great questions!	Thank you for putting up the session! It was helpful and clarifying and helped me feel a little less stressed about what to expect in my future academic endeavors.
